Bring Your Own Device

2015

Parent information evening

Darling Range Sports College
Dare to Dream
Why BYOD?
It’s not about the tools -

It’s about using the tools to facilitate learning

Research studies from the US and Canada show a significant increase in the level of student engagement in learning activities and an increase in literacy levels when laptop programs are implemented through excellent teaching and learning strategies.
Bring Your Own Device
2015
It is recognised that in a digital age, and with rapid and continuing changes in the ways that people share, use, develop and communicate with ICT, young people need to be highly skilled in its use.

In the Australian Curriculum, students develop ICT capability as they learn to use ICT effectively and appropriately to:

- access, create and communicate information and ideas,
- solve problems, and
- work collaboratively in all learning areas at school, and in their lives beyond school.
Portable Devices Policy
Responsibilities of Parents/Guardians

- Parents will need to supply an acceptable device for their child to use during school hours.

- It is recommended that parents have access to the device and occasionally check the software and other files saved on it to ensure that they are legal, ethical and suitable for school.

- Access to the Internet out of school hours will be via the home Internet account and at the cost of the parent/guardian or students.
Responsibilities of Students

Students will need to:

- Bring their **fully charged device** to the College every day.
- Adhere to the Portable Electronic Devices Policy and the Acceptable Network Usage Policy at all times.
- All data must be backed up each night by the student (e.g. to an external hard-drive or to the cloud). Lost data will not be an acceptable reason for lost work.
- Ensure that images on the desktop or stickers are appropriate for school.
- Ensure the device is in a protective cover, keep the device in a school bag, and never leave the device unattended.
Responsibilities of School and/or Teachers

- Teachers at Darling Range Sports College will monitor the use of the devices in class and provide instruction and guidance to students with regard to appropriate use.

- Teachers will develop programs that incorporate the use of the technologies available to enrich the learning experiences of students.

- It is not a requirement that the devices will be used every lesson; the teacher will decide, based on the particular task at hand, if it is appropriate to use the device during the lesson.
Damage, Vandalism and/or Loss of devices

• The College is not responsible for the repair or replacement of damaged or lost devices.

• The College is not responsible for repairs of devices purchased through a retail outlet.

• The College will assist, however, with providing a collection point for devices that are purchased from Stott and Hoare and require repairs.

• Stott and Hoare will be responsible for the repairs for devices purchased through them—please ensure you are aware of their various options for this.

• College insurance does not cover loss or theft of these devices.
Misuse and Breaches of this policy

If a student is found to have misused their device at school, there are a range of sanctions that may apply, including, but not limited to:

- Loss of some or all College network privileges for a period of time
- Suspension from school
- Reporting of a criminal offence by the College to the Police
Minimum specifications...

• Windows 8.1 operating system
• USB port or external hard drive (wireless)
• Long battery life
• Robust carry case
• Software and Apps as per information sheet including Microsoft Office
• Optional – touch screen with stylus
Bring Your Own Device 2015

Why a Windows 8.1 Device?

Our College is an existing Windows environment enabling the devices to connect easily to existing complementary devices in use throughout the College.
Where to acquire a device?

- Purchase your device from any supplier/retailer. In this case, please ensure that the device meets the minimum specifications and also that you are aware of the service and warranty arrangements.
- Outright purchase or a leasing agreement is available through our recommended supplier, Stott and Hoare.

- Parents entering this program may be eligible for a Tax Rebate (please refer to the following link):

Bring Your Own Device 2015
Technical support

• Technical support will be provided by the College to assist the students to connect to the College network.

• Hardware and software problems that may occur are the responsibility of the owners of the device to rectify.

• If the device has been purchased from our recommended supplier, Stott and Hoare, the College will assist with the collecting of devices for repairs and the re-issuing of devices once they have been repaired.
Will cyber safety be an issue?

- Like mobile phones, email and messaging systems can be inappropriately used.
- It is essential all members of the community – students, parents and staff – are aware of the importance of cyber safety.
- Refer to the following website for further information:
  
  www.cybersmart.gov.au
Non-Participating students

- Will lack the capacity to fully access the curriculum.
- Will be unable to access the internet and share drives at the College.
- Will not effectively develop the 21st Century skills previously mentioned.
- Will not have access to other ICT facilities at the College.
ANY QUESTIONS?

THANK YOU FOR ATTENDING
